**REQUEST FOR A CERTIFICATE OF CORRECTION OF PATENT FOR
APPLICANTS' MISTAKE (37 CFR § 1.323)**

Sir:

There is a clerical error in the above referenced patent that is more fully described below.
A certificate of correction is respectfully requested.

Litigation Notice:

U.S. Patent 5,809,336 is currently involved in litigation. Therefore, pursuant to MPEP § 1003, this Request for a Certificate of Correction is submitted to the Director for Technology Center 2180.

The details of the current litigation are as follows. Technology Properties Limited, an assignee of the entire right, title and interest of inventor Charles H. Moore in the above-referenced U.S. patent, filed a complaint for patent infringement in the United States District Court for the Eastern District of Texas Marshall Division on October 24, 2005. The current defendants in the lawsuit are Matsushita Electrical Industrial Co., Ltd., Panasonic Corporation of North America, JVC Americas Corporation, NEC Corporation, NEC Electronics America, Inc.,

NEC America, Inc., NEC Display Solutions of America, Inc., NEC Solutions America, Inc., NEC Unified Solutions, Inc., Toshiba Corporation, Toshiba America, Inc., Toshiba America Electronic Components, Inc., Toshiba America Information Systems, Inc. and Toshiba America Consumer Products, LLC. The lawsuit is docketed as Civil Action No. 2-05-CV-494. Trial has not yet commenced.

Establishment of Rights of Assignees to Take Action Under 37 CFR § 3.73(b):

Technology Properties Limited, a California corporation, is the assignee of at least a portion of the right, title, and interest of inventor Charles H. Moore in U.S. Patent 5,809,336. Patriot Scientific Corporation, a Delaware corporation, is the assignee of the entire right, title, and interest of inventor Russell H. Fish in U.S. Patent 5,809,336.

Technology Properties Limited, Charles H. Moore, and Patriot Scientific Corp. have appointed the registrants associated with Customer Number 40972 to act on their behalf in connection with patents that are jointly owned by Technology Properties Limited and Patriot Scientific Corp. Copies of general powers of attorney from Technology Properties Limited, Charles H. Moore, and Patriot Scientific Corporation are submitted herewith. Certificates under 37 CFR § 3.73(b) by Technology Properties Limited, Charles H. Moore, and Patriot Scientific Corporation are also submitted herewith.

Explanation of Error for which a Certificate of Correction is Requested:

An error has been identified in the above-referenced patent in Claim 10. The error occurred in good faith, and correction of the error will not involve changes in the patent that would constitute new matter or would require re-examination. Therefore, a certificate of correction is respectfully requested.

In particular, the portion of Claim 10 that states:

. . .

clocking said input/output interface using an external
clock wherein said external clock is operative at a
frequency independent of a clock frequency of said
oscillator. (italics added)

should state

. . .
clocking said input/output interface using an external
clock wherein said external clock is operative at a
frequency independent of a clock frequency of said
variable speed clock. (italics added)

The error in Claim 10 occurred inadvertently during prosecution of the associated application. Relevant portions of the prosecution history are summarized below.

1. Claim 10 of the issued patent corresponds to Claim 78 of the patent application.
2. Claims 78 and 79 were added to the patent application in the amendment filed April 11, 1996. Claim 78 recited (in part) "an oscillator." Claim 79, which depended from Claim 78, recited (in part) "said oscillator," referring to the oscillator in Claim 78.
3. In an amendment filed January 8, 1997, Claim 78 was amended to replace the term "oscillator" with "variable speed clock." However, the term "oscillator" in Claim 79 was not amended to "variable speed clock." Therefore, "said oscillator" in Claim 79 did not conform with the amendments made to Claim 78 and lacked antecedent basis in Claim 78.
4. In a supplemental amendment filed April 24, 1998, the limitations of Claim 79 were amended into Claim 78. Claim 78 thereafter contained the error of Claim 79. Issued Claim 10, which corresponds to Claim 78 of the patent application, also contains this error.

Therefore, the Assignees of the above-identified U.S. patent respectfully request that the Office issue a Certificate of Correction to correct the error in Claim 10. Two copies of Form PTO/SB/44, suitable for printing, are submitted herewith. Also enclosed is a Credit Card Payment Form PTO-2038 for \$100.00 for the required fees.

Please send the Certificate of Correction to the address listed below. If the Director has any questions or concerns, the Director is requested to contact Assignees' undersigned attorney at the number provided below.
